1. What data is measured?

• Type of data:

  - Device metadata (Network IP Adress, Network Transport, Wifi status, Mobile IP address, Mobile type, Mobile version)
  - Location Data -Weather Station location (GPS)
  - Product ID Data (Weather station name and room name, Outdoor module name, Wind module name, Rain module name, Indoor module name, MAC addresses of each product, RF status for each product)
  - Battery strength of each accessory (Outdoor Module/ Indoor Module/Wind Gauge/Rain Gauge)
  - Sensor measurements (temperature, relative humidity, atmospheric pressure, CO_2 level, Sound level, rainfall, wind speed and direction)

• File format:

  - Data can be downloaded from your personal online account via the Webapp in XLS or CSV format

• Storage size on product:

  - Depends on the number of accessories and the duration of the period of data collection.
  -    When the product is connected, data is also backed up on Netatmo server to extend data retention time and to be visualized on the app.

• Collection frequency:

  - Data is collected continuously. Measuring frequency every 5 minutes

2. Where is the data stored?

• On external servers:

  - Data is stored on Netatmo's cloud servers, compliant with GDPR.

• Retention period:

   - Product generated data storage begins when the user accepts Netatmo Terms of Use and Privacy Policy and installs the Weather Product and its Accessories and ends when the product is reset.
   - Unless you object, your account will be deleted if it remains inactive for 2,5 years

3. How can the data user/owner work with the data?

• Consulting the data:

   - Historical data can be viewed via the Netatmo app or web dashboard by all the home members.
   - Historical data can be downloaded via the web interface.

• Sharing the data:

   - Data can be exported in XLS or CSV format through the web app.

• Deleting the data:

   - Users can delete product generated data directly from the web interface.

• Terms of use & service quality:
https://view.netatmo.com/fr/legals/magellan?app_type=app_magellan&country=NL&goto=privacy
